Expertise

- Corporate law/M&A
- Corporate compliance
- Data protection law

Janina advises medium and large companies on all legal aspects of data protection law. She focuses on the implementation of the EU General Data Protection Regulation (GDPR) and on supporting companies in establishing data protection management systems, conducting data protection audits and negotiating with data protection authorities. Moreover, Janina supports companies with technology-based and outsourcing projects. Further key areas are reviewing and drafting privacy policies, drafting data protection contracts as well as advising companies on data protection requirements for international and intra-group data transfers, employee data protection and internal investigations.

Janina furthermore advises companies and entrepreneurs in all matters of corporate law. Key areas of her expertise are advising her clients on the law of the limited liability company (German GmbH Law) and partnership law. Moreover, she supports start-ups in the founding and growth phase.

Janina is a Certified Information Privacy Professional (International Association of Privacy Professionals, IAPP)
