EXPERTISE

- Public law

Andreas Rietzler advises clients from the private and public sector on all questions of administrative law in the context of the realization of construction and large-scale projects. The focus of his work lies on construction planning law, monument protection and building regulations as well as on large-scale planning and environmental law (including nature protection, pollution control, environmental impact assessment). Expropriation and compensation law are further key areas of his practice. He also advises on business related administrative law as well as constitutional law.

What others say

„ Recommended for environmental and planning law “

Legal 500 Germany 2023
