PRACTICE GROUPS

› **Construction and architects' law**

SECTOR GROUPS

› **Infrastructure**

› **Health sector**

EXPERTISE

- Construction contracts
- Law of architects and engineers
- Plant engineering law

Dr Dressel advises principals and contractors on all questions concerning private construction contracts and real estate law, including questions of contract design and contract management. He advises in particular with regard to liability for defects and claims for damages.

In addition, Dr Dressel also advises architects and their clients in particular on all questions of contract design, contract processing and liability. The focus of his consulting practice here is on the healthcare sector, especially hospital construction.

Further qualifications and memberships

- Member of Institute für Baurecht Freiburg im Breisgau e.V. (IfBF)

- Member of Deutscher Baugerichtstag e.V.
