EXPERTISE

- Public law
- Energy law
- Project development and project management law
- Corporate law/M&A

Lena-Sophie advises and represents clients on all issues related to project development. Her key practice areas are energy projects, in particular wind and solar farms. She advises on all aspects of energy and administrative law, including sectoral planning and environmental law, more specifically nature conservation law, immission control law and environmental auditing law, as well as building regulations and monument protection law. She also provides advice on project structuring, contract drafting and project transactions.

Curriculum vitae

- Studied law with a scholarship from the Heinrich Böll Foundation at the University of Freiburg and the University of Paris XII Val-De-Marne, 2008 to 2014
- Research Assistant at the University of Freiburg, 2014 to 2016
- PhD on European administrative law at the University of Freiburg, 2014 to 2017
- Legal clerkship at the Higher Regional Court Munich, including seats at the Bündnis 90/Die Grünen parliamentary group in the Bavarian State Parliament, 2017 to 2019
- In-house lawyer with a project developer in the renewable energy sector, 2019 to 2021
- Lawyer at Kapellmann since 2022

Further qualifications and memberships

- Member of the Bundesverband Windenergie e.V.
- Member of women of new energies e.V.
