EXPERTISE

- Construction contracts
- Law of architects and engineers
- Project development and project management law
- Real estate law
- Plant engineering law

Dr Sievers advises principals and contractors alike on all legal issues relating to the implementation of construction projects. The advice includes all questions regarding the drafting and execution of contracts. In addition to private construction law, Dr Sievers also advises in particular on architectural and engineering law. If conflicts cannot be resolved amicably, Dr Sievers represents clients in extrajudicial disputes as well as in court disputes

Recent work

- Advising a large German hospital group on the drafting of project control/project management contracts
- Advice and procedural representation of nationwide clinics in the enforcement of warranty rights for defects

- Project consulting for the expansion of a major German commercial airport (project volume approx. € 4 billion)
- Advising an insolvency administrator in the context of the insolvency of an internationally active construction company on the enforcement of work compensation claims for two large construction projects with a focus on plant construction in the field of technical building equipment and conducting settlement negotiations in the amount of approx. €15 million
- Advice and procedural representation of a German university and the state behind it in the determination and enforcement of warranty rights in connection with the expansion of lecture halls for the new construction of a university campus in the amount of approx. 1.5 million €.
- Ongoing construction and real estate law advice as well as litigation representation of a nationwide project developer
